

Coordinator - Check my Clubs' Access into YMMS

Step 1

Log into your YMMS account at NADYouth.com.

Step 2

On the Left-hand Menu, Click "Coordinator." Then, Click "Access by Users"

Step 3

Change the Period to reflect the time period of interest, and click filter Data.

Note:

YMMS resets in the summer so begin with a date in early June to capture any data from early on in the Club Year.

The data shown will include all Users, Director, Assistant Director, and Secretaries, for your Clubs, that have signed into YMMS during the specified Period.
(Click Export Data and generate a table with all columns to see their specific info).

Select all

The number under the Access column shows the number of times the user successfully logged into YMMS. The number under the Errors column shows the number of failed attempts, likely forgetting the password. Many errors may show signs of needing some help from the office.
